

Christmas tree pine/fir cone decorations

YOU WILL NEED:

Pine/larch/fir cones, whatever you can find- leave them somewhere warm for a few days to dry out and open up

Ribbons – Christmassy colours, red, green, gold, silver etc.

String- natural or Christmassy colours

White &/or green paint

Glue/glue gun

Berries/beads etc. to decorate

The pictures above give a few ideas. For the mini Christmas trees, half a wine cork- ask an adult to cut- stuck on with a glue gun works well, or you could use a bottle top. White, silver or gold paint can look very good on tree decorations set off with a lovely bow.
